

## **Jubilant June Content Update**

### **Developer Documentation**

**Internal name:** jubjun

**Version number :** 2.9.4

Jubilant June is the 4th content update to Kuala Lumpur, and the largest one to date!

#### **NEW CONTENT**

Our goal is to provide a experience that is truly unique and fresh by minimising the use of free models

##### **CARS**

Proton Prevé

A regular sized, modern 4-door sedan. Available in police variant.

Proton Exora

Locally produced 4-door MPV. Available in auxiliary police variant.

##### **PLACES**

Club Kunyet

Location: Jalan Sultan Johor

Club Kunyet is back! Promoting fun and

Mahkamah Majistret dan Sesyen

Location: Off Jalan Sultan Perak

The Magistrate and Sessions court.

Petronas Twin Towers

Location: Terminal of Jalan Sultan Johor

By popular demand, and as it should have been, the landmark is back from it's previous absence. We apologise for the wait.

#### **MECHANICS**

##### **PUBLIC TRANSIT**

Based off RapidKL, TransitKL is the authority for the city's public transport. At launch there will be two services provided.

## MONORAIL

Get around downtown Kuala Lumpur with the newly installed monorail system, complete with 4 stations. Fully automated.  
(Note: Model is a placeholder, will be changed soon)

## BUS

When drivers are available, busses ferry people throughout the city, picking up and dropping off passengers at bus stops. Connects the outskirts to downtown.

A fee is levied for usage of TransitKL services, but discounted for citizens and free for certain groups such as government servants.

## LOCKDOWN

Areas with high crime risk such as Maybank have been installed with a lockdown system that limits the movement of people within the building.

## SUMMONS

Players can now be given summons for minor offences such as improper parking.

## AESTHETICS

We have revamped the aesthetics of Kuala Lumpur, including detailed changes to lighting, some props and more.
